

# ReflexCoin 2.0 (RFX2)

## 1. Introduction

ReflexCoin 2.0 (RFX2) is the first Emotional-Value Token on Solana — exploring how collective emotional states may interact with symbolic digital value.

## 2. Purpose

RFX2 studies whether emotional behaviour, daily sentiment logs and community participation create observable symbolic patterns.

## 3. Tokenomics

- Total Supply: 2,000,000 (fixed)
- Mint: 43qV5jUhNEtsPeoLzEZyRLYA5tUSNTo2rgVv8mCJsx9z
- Mint Authority Renounced
- Freeze Authority Disabled

## 4. Emotional Logging System

Users select their daily emotional state (Happy, Angry, Sad, Motivated, Loved). These logs may support symbolic airdrops and emotional analytics.

## 5. Why Solana?

High speed, low fees, strong ecosystem — ideal for daily interaction experiments.

## 6. Experience

RFX2 acts as a digital emotional mirror, capturing community sentiment.

## 7. Experimental Utility

Future symbolic mechanics may include emotional airdrops, rankings and trend events.

## 8. Authenticity

Fully verifiable on Solscan and Explorer. No central authority.

## 9. Disclaimer

Not a financial product. No promise of profit. Purely experimental.
