

# ReflexCoin 2.0 — Litepaper

ReflexCoin 2.0 (RFX2) is the first Emotional-Value Token on Solana.

## Purpose:

RFX2 explores whether human emotional signals can form symbolic digital value and observational sentiment patterns.

## Mechanics:

Users select a daily emotion. Community sentiment forms a collective emotional state.

## Tokenomics:

- Supply: 2,000,000 fixed
- Mint renounced
- Freeze disabled

## Utility (Experimental):

Sentiment analytics, emotional airdrops, symbolic leaderboards, mood-driven events.

## Philosophy:

No promises. No financial expectations. RFX2 is a social-emotional blockchain experiment.
